

## **Digital Info Technology (DIT) debuts SNAPPY Face Recogniser, an INTELLIGENT WEBCAM with Face Recognition Screen Saver**

Gain access to your computer system using your FACE!

Snappy Face Recogniser is a face detection and recognition system that protects your computer and important information from unwanted access.

Using advanced face recognition technology, it records and recognises existing PC user's face and logs you on, while preventing unauthorised users from logging to your computer without your presence.

Good for preventing children, family members, co-workers and other workstation users from gaining access to your computer.

### **FEATURES**

#### **Recognise your Face and prevent access from others**

Using face authentication to gain access to your computer. Absolutely secure and reliable in preventing intrusion.

#### **Hi Speed Recognition**

Powerful enrollment speed that allows logging in to your computer system quickly.

#### **Animated Screen Savers**

Choose from any of the 3 'live' animated screen savers.

#### **TRUE 1.3 Megapixels**

Snappy Intelligent Webcam captures finer, sharper and more accurate details like never before.

#### **High Image Resolution**

Superior still image quality of 1280 x 1024 pixels; video image quality of 640 x 480 pixels.

#### **Low Distortion**

Obtain crisp still and motion images with distortions being reduced to the minimum.

#### **Compact and Ultra Light**

Created for the mobile lifestyle, small, light and extremely portable.

**Live Animated Screen Savers**
